

## Product description

## Physical chemical analysis

**Description** Glycine is a nonpolar amino acid, the simplest one of the 20 natural amino acids.

**Extinction Coefficient**  $\geq 24000$

**Wavelength** 245 – 251 nm

**Appearance** White to faint yellow powder or crystals.

**Extinction Coefficient**  $\geq 8000$

**Carbon** 62.2 – 64.1%

**Purity (GC)**  $\geq 98.5\%$

## Other specs

## Our certificates

**Transport** Loose in bulk

**Shelf life** 2 years

**Storage** Product should be stored in a dry and cool place
